CD-1® IGS Mice

Strain Code: 022

Weight in Grams	Male Price	Female Price
Up to 12	8.75	8.75
13-15	9.61	9.61
16-18	9.86	9.86
19-21	10.17	10.17
22-24	10.35	10.35
25-plus	Price upon request	Price upon request
Retired breeders	9.61	9.61
Littermates 21 days old only	11.77	11.77
Lactating mouse with litter	–	113.42
Timed pregnant*	–	64.78
Untimed pregnant*	–	45.15

** For timed and untimed pregnant, please see our pregnant animal guarantee policy.*

Nomenclature Crl:CD1(ICR)

Origin The original group of Swiss mice that served as progenitors of this stock consisted of two male and seven female albino mice derived from a non-inbred stock in the laboratory of Dr. de Coulon, Centre Anticancéreux Romand, Lausanne, Switzerland. These animals were imported into the United States by Dr. Clara Lynch of the Rockefeller Institute in 1926. The Hauschka Ha/ICR stock was initiated in 1948 at the Institute for Cancer Research (ICR) in Philadelphia from “Swiss” mice of Rockefeller origin. To Dr. Edward Mirand of Roswell Park Memorial Institute where they were designated as HaM/ICR. To Charles River in 1959. IGS refers to animals bred using the Charles River International Genetic Standardization system.

Coat Color White (albino)

Research Application General multipurpose model, safety and efficacy testing, aging, surgical model, pseudopregnancy
