* dashes indicate not tested during specified period.

STRAINS & STOCKS

Outbred
 NU/NU CD1

All agents are screened annually. The policy for a positive result is to immediately recycle the isolator.

a = Additional bacteriology is done every four weeks by isolator swab.

b = Results do not include incidental or strain related findings; significant findings would result in immediate recycle of the isolator. c = Screened annually by clinical exam.

Data shown are representative of the colony; Please contact Technical Assistance at 1-800-338-9680 for more information on any positive findings appearing in this report as well as assistance in interpreting them.
