

Consulting and Staffing Services

Staffing

Charles River's Consulting and Staffing Services (CSS) was formed in 1993 to address the growing need of the government, commercial and academic sectors for high-quality laboratory animal research support on a contract basis. Today, Charles River CSS has more than 800 employees staffing research facilities in these sectors, with over 18 million square feet under management around the globe.

Depending on research requirements, the scientific staff needed may require qualifications ranging from the BA/BS level to the PhD, MD and DVM levels. We work closely with you to define the most appropriate combination of knowledge, skill and ability to provide staffing support tailored to meet your specific research needs. By employing our customized staffing services, you can concentrate on your research and have confidence that your day-to-day operations will run efficiently.

Staffing Capabilities

- Scientists (MS to PhD level)
- Managers (project, laboratory, animal facility, etc.)
- Board-certified veterinarians
- Technically skilled veterinary technologists
- Cagewash and animal husbandry personnel
- "Cage to benchtop" transgenic technicians
- Embryo cryopreservationists
- Aquatic specialists
- Administrative professionals

On a confidential basis, Charles River staffing professionals are available to discuss your staffing and animal facility needs and, upon request, to conduct an on-site evaluation of your overall staffing needs.

Advantages

- Over 15 years of experience in the animal care and scientific staffing field
- Management of the entire staffing process — recruiting, training, placement and oversight
- Ability to retain full oversight or scientific direction of the contract staff
- Comprehensive approach to ensure that employee skills match defined job requirements
- Wide array of scientific talent and expertise
- Nationwide network of staffing support
- Flexibility to adapt to changes in staffing requirements
- Extensive corporate resources
