

# 17

## REASONS FOR THE HUMANE AND ETHICAL TREATMENT OF LABORATORY ANIMALS

IMMUNIZATIONS FOR POLIO  
ANTIBIOTICS • INSULIN  
HEART TRANSPLANTS  
HIGH BLOOD PRESSURE MEDICATION  
ARTHROSCOPIC SURGERY  
ARTHRITIS MEDICATIONS  
IMMUNIZATIONS FOR MEASLES  
LIVER TRANSPLANTS  
CHEMOTHERAPY  
IMMUNIZATIONS FOR MUMPS  
JOINT REPLACEMENTS  
LIMB REATTACHMENTS  
IMMUNIZATIONS FOR HEPATITIS  
CORONARY BYPASSES PROCEDURES  
KIDNEY TRANSPLANTS  
HEALTHY PEOPLE

EVERY MAJOR MEDICAL ADVANCE HAS BEEN A DIRECT RESULT OF ANIMAL TESTING AND THE HEALTH & WELFARE OF ANIMALS HAS A SIGNIFICANT IMPACT ON THE OUTCOME. STRESSED ANIMALS MEAN COMPROMISED RESULTS. THAT'S WHY IT IS OUR RESPONSIBILITY TO TREAT OUR ANIMALS WITH COMPASSION, BECAUSE THEY ARE LIVING, FEELING CREATURES AND IT'S THE RIGHT THING TO DO. BECAUSE THEIR HEALTH MAY IMPACT THE QUALITY OF RESEARCH. BECAUSE LIVES MAY DEPEND ON IT.
