

# BACTERIAL CELL GROWTH INFORMATION

It is important that our scientific staff has the following information pertaining to the growth and general characteristics of your bacteria sample. **Please complete this form and submit it with your samples.** This information will enhance the response time of your reports and obviate unnecessary telephone calls.

1. Bacteria Identification \_\_\_\_\_
2. Is Your Sample Recombinant? (check one): Yes  No
3. Growth Conditions:
  - a) Medium: \_\_\_\_\_
  - b) Supplements: \_\_\_\_\_
  - c) Temperature: \_\_\_\_\_
  - d) Additional Requirements: \_\_\_\_\_  
\_\_\_\_\_
4. Preferred Growth Density: \_\_\_\_\_
5. For Bacterial Cell Banks:
  - a) % glycerol preferred for freezing: \_\_\_\_\_
  - b) Preference of cryovial type (or N/A) \_\_\_\_\_
6. Additional Information: \_\_\_\_\_  
\_\_\_\_\_
7. Client's Name: \_\_\_\_\_
