

Software and Kinetic Reader instrumentation

To provide customers with maximum choice, Charles River Laboratories offer both plate and tube reader systems.

We can also offer complete plate reader packages including:

- Reader qualification
- Software qualification
- Training
- Product qualification.

Reader Rental Rates

Description	Reference	£
Rental for 1 month	MF900	
Longer rental periods possible depending on availability		

Complete plate reader package

Description	Reference	£
Including : reader, qualification, Endoscan V, PC, printer		
• for Tecan reader	MS100	
• for Biotek reader	M100	

TECAN Sunrise microplate reader

Description	Reference	£
Sunrise incubating microplate reader (without qualification) 12 channels with UV Supplied with 340, 405, 450, 620 nm filters	MS200	
QC PAC 2 calibration plate for Sunrise reader (valid for one year)	MS400	
Calibration plate recertification (valid for 1 year)	TS3000	
Bulb	M700/S	

BIO-TEK ELx 808 IU Microplate Reader

Description	Reference	£
Bio-tek ELx 808 incubating microplate reader (without qualification) 8 channels with UV supplied with 340, 405, 450, 490, 630 nm filters	M200	
Calibration plate (valid for 1 year)	M400	
Calibration plate recertification (valid for 1 year)	TS3000	
Bulb	M700	

Software

Description	Reference	£
EndoScan-V - 21 CFR Part 11 - Compliant Endotoxin Measuring Software compatible with Bio-tek, Tecan, LK-032, LK-064	M1200	
Software upgrade for EndoScan-V	M1200	
E. Sign Electronic signature package 21 CFR Part 11 compliant	M1300	
E. Sign user license	M1400	
EndoScan-V software - Validation package	TS600	
Biotrend database trending software	M804	
Biotrend software validation package	TS1000	

Software and Kinetic Reader instrumentation

Plate Reader options

Description	Reference	£
Computer : please contact your technical application specialist for system requirements	MF1500	
Ink jet printer	MF1600	
Service contract for plate reader This includes replacement reader within 72 hours	TS2700	
Qualification and maintenance of plate reader according to TS500 details		
Maintenance of plate reader This price does not include travel expenses	TS500	
After sales services	TS4000	
340 nm standard for reader qualification (30 ml)	SP200	
405 nm standard for reader qualification (30 ml)	SP100	
Microplate stand	M1000	
Well layout template (2 pieces)	M1100	
Endosafe Temperature Logger	MT 400	
Annual qualification for Temperature Logger		

NEW

Tube readers LK-032, LK-064, LK-096

Description	Reference	£
LK-032 incubating Tube Reader	MT200	
LK-064 incubating Tube Reader	MT225	
LK-096 incubating Tube Reader	MT275	
Endotoxin Software for Tube Reader	MT300	
Software upgrade	MT300	
Qualification and maintenance of tube reader This price does not include travel expenses	TS2600	
Service contract for LK-064 tube reader This includes replacement reader within 72 hours	TS2800	
Qualification and maintenance of tube reader according to TS2600 details		
Service contract for LK-032 tube reader This includes replacement reader within 72 hours	TS2900	
Qualification and maintenance of tube reader according to TS2600 details		
Tube Reader Lightbulb	MT500	

Robotic System

Tecan System

Description	Reference	£
Total system on TECAN FREEDOM EVO TECAN Platform 100, 150, 200 cm Arm with 4 or 8 pipette tip heads Robotic arm ID bar code option for tubes, microplates and racks SUNRISE reader Software : EndoScan-V, EVOWARE Accessories : stand, operator safety screen Installation and training	MG400	
TECAN Automated robotic system	MG200	

Conductive tips for TECAN robot (no filters)

Description	Packaging	Reference	£
Tips with no filters 0-200 µl	24 boxes of 100	MG214	
Tips with no filters 200-1000 µl	24 boxes of 100	MG314
