

## Filtered (Sew Easy™) Shipping Container Densities

It is our responsibility to maintain the strictest health and welfare standards when shipping our animals, not only because it's the right thing to do, but because our animals are vital to your research. To help make the comfort and care of our animals a priority, we provide several crates that are tailored to established shipping density guidelines for a variety of species. Our shipping

crates have viewing windows that allow you to inspect the animals and assess their interior conditions during and after shipping. The interior of our filtered crates is UV-light irradiated prior to packing animals, and our individual Gnoto-safe® plastic containers are disinfected with a cold sterilant prior to packing the animals.

### Rats

Gram Range Non-Obese	Days Range Non-Obese	Days Range Obese	Animals per Container*
Up to 50	Up to 21	Up to 21	20
